INANOFILMS®

PREMIUM ARCHITECTURE WINDOW FILMS

INANOFILMS Architectural Window Films can improve the performance and transform the appearance of commercial, industrial and residential buildings.

Major glazing system enhancements are available for both interior and exterior use, including solar protection, design and window safety applications.

Solar Window Films

The high performance INANOFILMS Solar Window Films filter damaging solar radiation and reduce interior heat build-up providing multiple benefits to occupants such as enhanced comfort and reduced glare, less fading of furniture and lower energy cost.

With a comprehensive range of finishes available, the level of comfort and privacy can be selected, and by applying the films internally or externally, the appearance of the building will be transformed.

Design Window Films

INANOFILMS has developed an attractive range of films to suit projects where enhancing a building's interior and exterior appearance is paramount.

Explore the selection of Design Window Films and discover how a building project can enjoy both aesthetics and excellent solar protection.

Safety Window Films

The Safety Window Films is designed to improve both safety and security and offers a range of protection level to glass breakages caused by accident, malicious intent, or extreme weather conditions. Additional surface protection solutions are also available.

INANOFILMS provides you with full sales and technical support, to ensure the best possible application results.

INTERIOR FILM

UV Block
> Protects skin
> Inhibits fading

Light control
> Improves comfort
> Reduces glare

Anti-graffiti
> Protects surface
> Clean and easy removal

Lower heat gain
> Improves comfort
> Saves energy

GOLD
Our Gold Film provide the maximum heat Rejection and the maximum amount of energy efficiency by rejecting excess solar radiation, reducing heat build-up from windows

Shard retention
> Enhances personal safety
> Offers security protection

EXTERIOR FILM

UV Block
> Protects skin
> Inhibits fading

Light control
> Improves comfort
> Reduces glare

Anti-graffiti
> Protects surface
> Clean and easy removal

Lower heat gain
> Improves comfort
> Saves energy

EM-75 film provide possibly the maximum amount of energy efficiency by rejecting excess solar radiation, reducing heat build-up from windows

Shard retention
> Enhances personal safety
> Offers security protection
